

# INFINITY GLOBAL WEEK

From **August 24th to September 1st**, we will be celebrating the largest simultaneous event in the history of Corvus Belli.

During one intense week players the world over are going to be simultaneously playing Infinity. An exciting way indeed to celebrate our favorite wargame.

The IGW is an initiative of our international gaming community.

## WHAT TYPE OF EVENTS ARE INCLUDED?

**Tournaments** at both the large and small scale will be celebrated by our wonderful community. The size of these events is not the most important factor, the onus is on having a good time among friends.

We propose a standard format for these tournaments so that everyone can play under the same conditions which will allow us to have **an official IGW ranking**.

**Painting events:** as the hobby is such a fundamental part of the game. A painting event will also be part of the celebration week.

All events will be displayed and promoted on our official website:

## HOW TO PARTICIPATE?

Participation is very simple.

Firstly, you must fill in a short form with your data. Corvus Belli will then contact you. Following this, Corvus Belli will include your event on the official IGW website. If you also require that your tournament is compatible with ITS, you will be able to access a **tournament code at a discounted price**.

Remember, this is a time for celebrating Infinity and it's not all about competition. Therefore, all types of events are welcome.
